

## *Easter Dinner*

### *Heating Instructions for Dinner #1 (Serves 6 People)*

#### *Baked Boneless Chicken Breast (6 pc.)*

- The meat, potatoes, gravy and vegetables in your meal are freshly prepared fully cooked food items and must be kept refrigerated until you are ready to reheat. They have been put into aluminum containers for your convenience.
- We recommend the following heating instructions for the best results.
- Be sure the racks in your oven are adjusted so that there is room for each item to sit on the racks.
- Do not put items directly on the bottom of the oven, as it will burn the food.
- Do not reheat food in aluminum pans on stove top.
- Place vegetables and gravy in pots for reheating on stove top.

*Choose the cooking instructions in each step that pertains to the sides you have selected for your meal.  
Preheat oven to 350° to ensure complete heating of your food.*
